SY 2025-2026**

**NARRATIVE REPORT ON THE PROJECT: "LIGHTING INSTALLATION OF THE
SCHOOL QUADRANGLE"**

As part of its commitment to improving the school environment and ensuring the safety and convenience of learners, personnel, and stakeholders, the General Parent-Teacher Association (GPTA) Officers successfully implemented the Lighting Installation of the School Quadrangle Project.

The project was made possible through the generous donation of lighting materials amounting to Ten Thousand Seven Hundred Ninety-Four and Four Centavos (₱10,794.04) from Punong Barangay Monaliza Dulnuan-Comila of Barangay Betag, facilitated through the efforts of GPTA President Arniel Campos. The donation provided the necessary materials to enhance the illumination of the school quadrangle, particularly during school activities conducted in the late afternoon and evening.

The installation works were carried out from June 20 to June 26, 2026. To avoid disrupting regular school operations, the installation was conducted after class hours. The project was diligently undertaken by skilled workers, who ensured the proper installation and functionality of the lighting fixtures.

The successful completion of the project has significantly improved the visibility and security of the school quadrangle, providing a safer and more conducive environment for learners, teachers, parents, and visitors. This initiative highlights the importance of collaboration among community leaders and the GPTA in supporting programs and projects that contribute to the development and improvement of the school.
